

TS22FHD SMG14 12V

Product Cod. 28000256
EAN cod. 8051511393770

androidtv | Hey Google

Bluetooth™

BLUETOOTH REMOTE CONTROL WITH
GOOGLE VOICE ASSISTANT AND
DIRECT KEYS FOR NETFLIX, YOUTUBE,
PRIME VIDEO AND GOOGLE PLAY

TELE System introduces TS22FHD SMG14, the certified Android TV™ that combines the smart universe with terrestrial and satellite television content in DVB-T2/S2 HEVC digital technology.

Android TV™ makes your TV easier; choose from 400,000 movies and shows from streaming services.

The Google voice assistant lets you control your TV, get suggestions on what to watch, dim the lights in your house and much more, just with your voice. Cast photos, videos and music from your smart devices to your TV with Chromecast built-in.

Perfect for digital terrestrial, but also for free satellite TV: thanks to compatibility with CAMTVsat distributed by TELE System, you will have hundreds of HD quality television channels available, always up to date.

The TV thus becomes the center of home entertainment with hundreds of programs always available thanks also to the functions offered by the HbbTV protocol which allows you to review content that has already been broadcast or, thanks to the "restart" function, to play the program from the beginning. TV program you are watching.

By connecting a hard disk to the USB2.0 port, the TV transforms into a media player while the "TV PAUSE" function allows you to pause the live broadcast of the TV program you are watching to resume viewing at a later time: simply press the "PLAY/PAUSE" button on the remote control to activate it.

TS22FHD SMG14 of the "TRAVEL TV" line offers 360° entertainment at home or on holiday, thanks to the dual 220V AC power supply + 12V DC input with voltage peak protection system up to 24V, you can also use the TV outside the home: caravans, campers, trucks, boats, etc.
